What is Synapse?

**Synapse** is the name of IU Health Radiology PACS. 16 IU Health hospitals store exams directly into Synapse. 12,000,000 exams can be accessed from 20,000 IUH PCs.

13 of the 16 hospitals store in a database named “**IU Health**”. The imaging sites Eagle, North, East and South also store exams in “**IU Health**”.

Exams done at **Arnett**, **White** and **Frankfort** hospitals are stored in a separate database within Synapse called “**IUH Arnett and White**”.

Exams done at **Union Hospital** and their affiliated hospital in **Clinton** are also stored in Synapse despite not being an IUH facility. Their exams are found under “**Union Health**”.

How do I find exams in Synapse on IU Health patients?

1. Select data source

2. Double click “All Patients”

3. Enter MRN in “Patient ID” and then press “Enter”
